How to update line management in myTeam (HR)

In myTeam (HR) you can now update line management reporting relationships between staff and their managers. This would mean you can amend members of staff line manager; this will take effect immediately. You can also add a second line manager (where applicable).

Replacing a Line Manager:

Click on update line management in myTeam (HR)

**Please note you need to be in myTeam (HR), if you have access to myTeam you will need to speak to a colleague in your Department who has myTeam (HR) to administer the changes. (try your [Departmental Recruiter](#) in the first instance)*

The screenshot shows the myTeam (HR) dashboard. The 'Update Line Management' link is highlighted with a blue arrow. The dashboard includes a navigation bar with 'myTeam (HR)' selected, a 'Services' section with 'Update Line Management' highlighted, and a 'Links' section with various HR-related links.

Once on the below screen you will need to highlight the blue cube to the side of the member of staff you wish to change their line management reporting:

The screenshot shows the 'Update Line Management' screen with a table of staff members. A blue cube is highlighted next to the first row, indicating the staff member to be updated.
